

Environmental Management Policy

Guidelines/Legislative Compliance

- Queensland Environmental Protection Act 1994
- Queensland Environmental Protection Regulation 2008
- Australian Environment Protection and Biodiversity Conservation Act 1999
- AS/NZS ISO 14001: 2004 Environmental Management
- Client Environmental Plans and Policies

Policy Statement

Corporate Protection Australia Group Pty Ltd (CPA Group) is committed to ensuring all work practices are carried out in an appropriate and environmentally sound manner. CPA Group will ensure all employees are aware of, and instructed in, our Client's environmental policies and procedures.

The company is committed to:

- Working in accordance with AS/NZS ISO 14001: 2004;
- Continually improving our environmental performance to reflect recognised best practice;
- Ensuring compliance with all relevant environmental legislation, standards and codes, and also to continuously set higher standards for ourselves in order to exceed industry standards;
- Assessing environmental risks and impacts, and where applicable avoiding, minimising, rectifying, reducing or offsetting the harmful effects that our activities may have on the environment;
- Encouraging ethical environmental practices and behaviours including respect for the traditional rights, customs and cultural heritage; and
- Communicating this policy to all employees to promote environmental accountability and management.

Policy Objective

CPA Group is committed to implementing and adhering to a sound environmental management system at every site. CPA Group acknowledges environmental management is critical in the provision of professional services to our clients.

This policy applies to all CPA Group employees, contractors, subcontractors, consultants and visitors and shall be reviewed at least annually.

Measurements

- Incident Reports and Procedures
- Safe Work Procedures
- Environmental / Safety Audits
